Official Bulletin Is Now Issued Of Summer Conferences

The first official Bulletin announcing the summer conferences in Northfield has been issued and many thousands will now go out through the mails for distribution to churches and Church workers and as has been previously announced in The Herald the list is as follows including dates of the schools commencement:

Northfield Seminary Commencement, June 10-12.

Mount Hermon School Commencement, June 10-12.

Northfield Girls' Conference, June 23-July 1.

Northfield Missionary Conference, July 7-15.

Conference of Religious Education, July 18-28.

General Conference of Christian Workers, July 29-August 14.

Massachusetts Christian Endeavor Conference, August 14-21.

In calling the General Conference, Mr. William R. Moody, who has been in charge for many years has this to say in his announcement:

"Three years ago the late President Calvin Coolidge in addressing a group of insurance agents in Florida, made the statement that the strength of a nation, in the last analysis, is to be found in its spiritual resources. This is a fact. The days in which we are now living are making many realize this as never before, but it is one of the blessings of an era of depression that many are realizing the truth that it takes such a season to learn lessons which are overlooked in prosperity.

"In issuing the call to the annual Conference of Christian Workers at Northfield, it is with the consciousness of our national need to again reiterate the words of Scripture, 'The things which are seen are temporal; the things which are not seen are eternal.'

"It may well be that it has needed these trying days to emphasize again eternal truths. If at the cost of material prosperity our nation can be recalled to a sense of spiritual values, it will prove well worth while.

"Among those who are to be with us are the following speakers for the general public:

The Rev. Adam W. Burnett of Glasgow, Scotland; The Rev. D. M. Baillie of Kilmacolm, Scotland; Dr. Charles R. Erdman of Princeton; Dr. J. Stuart Holden of London; Dr. Paul D. Moody of Middlebury; The Rev. Stanley Carne of East Northfield.

"Special attention will also be given at the ministers' meetings with a view to helping those who are leaders of the religious forces of our country. The following have promised to take part in these services, which have proved of so great help in years past:

Dr. John Baillie of Union Seminary; Dr. James Moffatt of Union Seminary; Dr. William S. Mitchell of Worcester, Massachusetts; Dr. L.M. Zimmerman of Washington, D.C.

"Assisting in the music are Mr. and Mrs. Buzzell of Suncook, N.H. and Mr. Glanville Davies of Burlington, Vt.

"With the earnest prayer that these days of Christian fellowship may tend to strengthen the spiritual force of our nation, and with assured confidence that all things work together for good to them that love God, we extend this invitation for 1933."

Improvement Society Creates Permanent Fund Preserves Town Beauty

The Northfield Village Improvement Society took a long step forward in establishing its permanent fund on Tuesday evening at the Library Hall when its annual meeting was held. It decided unanimously to create a Permanent Fund, beginning with five hundred dollars, and deposited with the Northfield National Bank, to which may be added additional gifts of money or bequests made to it as beneficiary. The Society now has an Investment Fund in Bonds of \$2100 and the Permanent Fund of \$500 the income of which is to be spent in beautifying the streets of Northfield and maintaining it as a place of beauty and attraction. The Financial Committee consists of William F. Hoehn, Merwin D. Birdsell, and Charles C. Stearns. This year an effort will be made to plant at least a hundred trees along our highways and the President was empowered to appoint a special committee to take the work in charge and secure co-operation from the state and town authorities. A special meeting will soon be called to consider the report of the Committee. Officers elected for the ensuing year were: Carl Mason, President; I. R. Smith, Vice President; Mrs. Fred S. Merrill, Secretary; Merwin D. Birdsell, Treasurer and Leon R. Alexander, Auditor. These officers comprise the Executive Committee. The reports for the year showed the society in a flourishing condition and quite alive to the best interests of the Community.

Northfield Citizen Walks To Greenfield On 87th Birthday

Following a custom established many years ago Mr. Henry L. Hayden, one of Northfield's oldest citizens walked to Greenfield and back on his 87th birthday on Saturday. He makes the walk by foot unaided by any "auto lift" and declines every offer to ride. Mr. Hayden stood the trip remarkably well and was the guest of the Mansion House for dinner. He left Northfield about six o'clock in the morning and reached Greenfield shortly before noon. After dinner he looked over the business section of Greenfield and started his journey home. To a representative of this paper Mr. Hayden said he proposed to continue the walk each year if his health permitted. He is robust and now enjoys good health, living in the open air most of the time.

Northfield congratulates Mr. Hayden on another milestone.

The building is being repainted by the owner and everything is being put in shape and readiness for the summer business. Kelavista as usual should prove of real advantage to this community. The day of its reopening will be May 15th and it will be named Valley Vista Inn.

THE OLD ACADEMY BUILDING
Once Known as Hunt's Tavern

Ye Auld Tavern To Open This Summer

The Old Academy Building, also known at one time as "Ye Auld Hunt's Tavern" which is now undergoing many alterations and repairs by its new owner, Rev. George A. Bronson will be open as a Tourists Inn soon. Accommodations will be provided for overnight guests and Mr. Bronson and his family occupy the apartment on the first floor south. The building has been wired for electric lights, new plumbing has been installed and the interior has been newly decorated and repainted.

Hunt's Tavern known and praised by many a traveler in the years around 1800, was built by Capt. Elisha Hunt about 1798 on the site of a former Tavern owned by Capt. Samuel Hunt, Capt. Elisha's father, and noted as a hostelry as early as 1765. It was a Tavern and one of the most noted Inns on the stage route from Shewsbury, Mass., to Bennington, Vt.

The tale of the old Inn is one with the stories of most hostleries of 150 years ago; reminiscent of large open fires, candle light glistening on the brown and green bottles arranged neatly behind the tap room bar; feather beds and warming pans and fresh mush and sausages for breakfast, following a steaming glass of toddy. Then the stages left for Worcester and Boston by either the north or the south road to Warwick and later the state route to Northfield left the Post Road, that led from Boston to Worcester, Hartford and New York.

In 1829 the property was purchased by the Northfield Academy Corporation and the interior of the building was remodeled for use as a School. It was then known as the Northfield Academy and so continued till 1843. It then became a Temperance Hotel but only for a short time after which it was rented as apartments.

On June 1, 1933 this famous historic building will be open under new management for a Tourist Inn with provisions for board and accommodation for regular and overnight roomers and boarders, fifteen rooms. The whole building will be furnished with tub and shower baths, electric lights, reading room, spacious verandas, beautiful lawn, inside and outside games, with a most genial Hostess and a most capable Cook.

'In The Antique Shoppe'

Saturday evening May 27 an entertainment will be given in the Auditorium, when a playlet called "In An Antique Shoppe" will be played by a local cast of about 20 persons. As the shopgirl dusts and arranges the various antiques that are on sale, she wonders to whom they belong, and what were the circumstances. The plot brings back the originals one by one, showing a cradle, a sampler, an old chair, and so on. There are 12 episodes in all. Each performer has something to tell. There is also piano music by Leon Dunnell, with several appropriate solos. The articles on the stage will be real antiques, each with its own history, and the costumes and customs will be those of a century ago.

An extra treat will be afforded by the Mount Hermon Glee Club under the direction of Prof. Irving J. Lawrence.

Students of the town schools and of the Seminary and Mount Hermon will be admitted at a special price.

The affair is for the benefit of the Brattleboro Memorial Hospital, and is intended to give Northfield an opportunity to express appreciation for the helpful service it has always received by those in need.

Taxpayers Association

The regular monthly meeting of the Northfield Taxpayers Association will be held Monday evening, May 15th at the Town Hall. The Directors of the Association will hold a meeting next Monday evening in the selectmen's room.

Water Is Pure State Analysis Shows

After all the unnecessary excitement about our local drinking water at which time people were urged to boil the same for drinking purposes a report comes back from the State Department of Public Health that an analyses of the water in Minot Brook of the Northfield Water Company shows that the samples of water taken were "free from objectionable bacteria and safe for drinking." The water supply of Northfield is carefully guarded and our citizens are fortunate to have an adequate supply and of such good quality.

Pink Stickers Now

On the first of May, all motor cars and trucks licensed in Massachusetts must display pink stickers on the windshield indicating that their brakes, lights, horn, mufflers, steering gear and windshield wiper are in proper operating condition and the number plates are in proper place or the drivers will have to explain to the state police officers why the pink sticker is missing.

Library Record Shelburne First

The State Library Bulletin announces that Shelburne has the largest per capita circulation of library books in the State. Shelburne has two libraries. Warwick and Heath are listed in a tie for third place with more than 20 books per capita.

However Northfield with its population has two private libraries supplementing the town library, Shaffner Library at Hermon and Talcott Library at the Seminary.

New Facilities At Morgan Garage

A revolutionary new machine that will clean a spark plug in 4 or 5 seconds has been added to the modern equipment of the Morgan Garage service station.

EDITORIAL

When a "feller" needs a friend he does not look for him in Hindustan or Guam. He probably does not even need leave the community in which he lives. Like Sir Galahad who searched the world over, only to find that which he sought, at his doorstep, one's friends are those with whom elbows are daily touched. His associates are his friends for they know him well enough to have faith in his intentions and ability to meet obligations—they have confidence in his honesty and integrity and the man or woman in Northfield who fails to realize his friendships had better make some searching investigation of his own habits and conduct of life.

Secret orders all over the country have been and are being hard hit by the present economic and financial conditions. With not much available cash it has been difficult to pay dues. It will be a good time for that manifestation of brotherly patience and love which suffereth long and is kind.

The whole automobile accident problem really revolves about selfishness and discourtesy on the road. For every intentionally reckless driver, there are a dozen with an entire disregard for the rights of others. They apparently believe that the highways were built for them, and that it behooves every other motorist to keep out of their way. They fall in the first obligation of every driver—to learn how to operate a car efficiently before venturing onto the public roads and streets, and then to meet every other motorist half-way in making those streets and roads safe.

New Farm Appointees

Mr. Carey H. Howlett is to take the position of superintendent of cattle at the Mount Hermon school farm, long famous for its herd of registered Holstein-Friesian cattle and Mr. Farrand W. Hodgdon, who has had charge of the creamery at the Quononot Stock farm, Whately, will assume charge of the Mount Hermon creamery. Hodgdon is a native of Cabot, Vt., and was a student at Hermon in 1927-28.

Howlett was a Southampton boy and is a graduate of Mount Hermon school in 1928 and Massachusetts State College in 1932. During the past year he has been at Chestnut Hill, Conn., where he has held a position similar to the one he assumes here. He takes the position made vacant by the death last month of David B. Stevens under whom he worked while a student here.

Howlett was married the day after graduation at Massachusetts State college and his wife will join him here a little later.

"The White Sister"

A new contribution to the list of imposing screen achievements will be shown at the Latchis Theatre, Brattleboro, Monday, Tuesday and Wednesday in the presentation of "The White Sister," with Helen Hayes and Clark Gable in the principal roles. In its poignant, touching narrative, its beautiful direction, its effective camera work and in the brilliant performances of two well-known stars, this picture stands out forcibly as an example of the best in cinema art.

F. Marion Crawford's immortal story of the girl who enters a convent when she believes her lover to be dead only to meet him again after she has taken her holy vows, is too well known to bear repetition in these columns. Sufficient to say that the new talkie version of the tale brings out its most forceful moments, describes the experiences of the romantic Italian girl and her soldier-lover in a series of warm, sympathetic, human episodes and bring the narrative to a close in as heartrending a climax as has been seen on the screen in some time.

An Evangelist's Story Has Local Flavor

When Rev. Dr. J. C. Masse was speaking recently in St. Paul's Methodist Church at Dover, New Jersey he gave utterance in a story of interest to many of us in Northfield. He told a story about Rev. Reuben A. Torrey the Evangelist who once lived here on Winchester Road in the large house destroyed by fire on the location where stands today the home of Editor Hoehn and upon which location stands even to this day the old "summer house" at the side of the brook where he and Mr. Moody often sat to hear the rumbling of the waters and discuss religious affairs. Mr. Masse proceeds in saying that:

"Torrey, who at one time was associated with Dwight L. Moody was preaching on the second coming of Christ when, out of a sudden storm, there was a terrific crash and a blinding flash of lightning seemed to break through the roof of the building. The panic-stricken audience fled pell mell, leaving only the preacher and a woman who sat near the pulpit. The woman was Moody's sister. When the shock had passed she laughed as she looked up to where the lightning had played and said: 'For a moment I thought Jesus had come.' And Torrey drily replied: 'So did the other two thousand.' The audience appreciated the story."

Hinsdale

The annual election of officers of the Hinsdale Woman's club was held last week and the following officers were elected: Mrs. Hubert L. Brown, president; Mrs. E. B. Sanderson, vice-president; Mrs. E. J. Richards, secretary; Mrs. C. B. O'Neal, corresponding secretary; Mrs. H. S. Garfield, Mrs. W. E. Watson, and Mrs. J. A. Haines, executive committee.

A one and one half story house situated on Tower hill and occupied by the family of Felix Kerylow was completely destroyed by fire which started from some unknown cause Saturday night, April 22.

Mrs. Hattie Jones Gonyer, 65, wife of Frank Gonyer of North Hinsdale, died in her home Tuesday, April 25. Born in Stratton, Vt., Dec. 7, 1867, she was one of the five children of Jesse C. and Sarah E. Crowninghill Jones. She leaves one sister, Mrs. Norman Allen of Brattleboro, Vt. Her younger life was spent in Stratton. She married for her first husband, Olin Atwood who died many years ago. Over 30 years ago she married Mr. Gonyer who survives. Besides her husband and sister, she leaves two children by her first marriage, Mrs. Clara Atwood Gonyer of Greenfield, Mass., and Ora Atwood of Jamaica, Vt. She also leaves three children by her second marriage, Floyd Gonyer of Concord, N. H., Fred Gonyer of Greenfield, Mass., and Miss Bessie Gonyer of this town.

NOTHING is permitted to stand in the way of an emergency call. Operators always alert. Level-headed supervisors lending aid. Every facility, instantly at your service if you only tell us WHAT and WHERE.

Is it fire? A doctor? Police? With telephone bells still echoing, the shrill clamor of roaring motors and wailing sirens splits traffic to answer the call. No charge. Just a helpful service, rendered to the best of our ability, as be-

tween good neighbors and good friends; but to its value, thousands of telephone users bear grateful witness.

Ask one who has been alarmed by prowlers of the night. Ask the man who has awakened to the smell of smoke. Ask the mother roused by the stricken cry of a child.

They'll tell you—more convincingly than we can—of single calls worth more than the service costs of a lifetime.

It's a lot better to have a telephone and "not need it," than to need a telephone and not have it.

Come in or call our Business Office today to ask about service.

It's news when anyone can give more safety, more style, more mileage in a tire than was ever given before at a lower price! ... That's exactly what Goodyear has done in the new 1933 Pathfinder—a tire that's certainly built and priced in tune with the times. ... It will pay you to look it over, because you'll see for yourself that it has more actual quality than many top priced tires of other makes—and it certainly gives more for your money than any tire selling for less.

May Discontinue
Record Christian Work

The Record of Christian Work
which has been published for many
years and one of the best known
religious journals in the country
may soon end its career so far as
Northfield is concerned it is ru-
mored. The magazine is published
by the Record of Christian Work
company of East Northfield and
has been closely allied with the
work of The Northfield Schools.
The Editor for many years was
William R. Moody who was suc-
ceeded by Mr. A. P. Pitt. Mr. El-
liott Speer is President of the
Company, George McEwan, Treas-
urer, Samuel E. Walker, Sec-
retary and Frank W. Pearsall,
Business Manager. It is said that
the periodical has been published
at a loss for some time and the
feeling is that it might possibly be
sold and merged with some other
periodical. At least rumor has it
that it will not be continued fur-
ther than the July issue as an in-
dependent magazine.

It was impossible to get in touch
with Mr. Speer for a statement re-
lative to the matter for publication
this week. The Record is a fine
magazine of its class and has done
credit to Northfield and to the in-
fluence of the evangelical teaching
of Dwight L. Moody. It will be a
real loss in the field of religious
journalism if it suspends, it will
prove a valuable asset to any
other magazine if merged.

The Bible or some part of it has
appeared in 336 languages and di-
alects according to a statement
just issued by the American Bible
Society. This figure, in which no
duplication of languages or dialects
occurs, represents the publications
of the three major Bible Societies
functioning throughout the world:
the American Bible Society, the
British and Foreign Bible Society
the National Bible Society of Scot-
land, as well as some missionary
organizations and others.

Speed-a-Way 4-H Club

The Speed-a-way club held a
meeting Friday April 28. We
opened the meeting by repeating
the club pledge and singing sev-
eral songs. The Secretary's and
Treasurer's report was read. Our
leader showed us how to make

Barbara Mankowsky, Reporter

Everready 4-H Club

The nine 4-H Club members of
the Everready Club were all pres-
ent May 2nd at their weekly meet-
ing. We organized a baseball team
of which Clarence Webber was
elected manager and Walter Lu-
ciew, Captain. We also had our
pictures taken.

After the regular business meet-
ing we made bird houses. Some
painted tool chests, others the new
feeder boards which we are fixing
for the school playground. Some of
the club members have worked on
the baseball diamond this week,
raking off the big stones also in-
stalling the home plate and the
pitchers box. Mr. C. Miller and Mr.
Birdsall have put up the back stop
and the diamond is almost ready
for Spring training. We hope to
have some loan drawn in this week
to put on the infield and also on
places where it is needed to make
it suitable for play. Many of the
boys have already reported on the
things they have done for the "Fix
It Week" program.

When the Kitchen Was the
Family Workshop

Time was, not so many years ago, when even
close friends were hardly ever invited into the
kitchen. It was the family workshop . . . and of-
ten looked the part . . . but today the modern
electrical kitchen has become a model of cleanli-
ness and efficiency—a room that is ready for vis-
itors at any time of day.

Styled for the modern home, the electric
range is the heart of today's smart kitchen. It's
many advantages combine to give hours of new lei-
sure and convenience to the busy homemaker—
and its economy helps balance the family budget.

While the modern economy prices prevail, its

A Hermon Graduate Made College President

Rev. Ernest W. Riggs of 25 Crystal St., Melrose, has been elected President of Anatolia College, Saloniki, Greece, and will assume office in October. Mr. Riggs was born in Merifon, Turkey, of a noted missionary family, his grandfather being the famed linguist and translator, Dr. Elias Riggs, and his father and two brothers having devoted their lives to service abroad.

Mr. Riggs went back to Turkey under the American Board of Commissioners for Foreign Missions in 1904 as an English instructor in Euphrates College, Harpoot, Turkey. He was Vice Consul in Harpoot from 1904-1907. In 1910 he was elected President of the College, serving until it was closed in 1915 by the Turkish Government. From then until the end of the War, Mr. Riggs was Principal of the Preparatory Department, Beirut University.

From 1920 to 1931, Mr. Riggs served as Child Welfare Director of the Near East Relief, and was called back to be a Secretary of the American Board, from which he retired in 1932. Mr. Riggs was educated at Mount Hermon School, Princeton University, Auburn Theological Seminary and has been studying philosophy and education this past year at Boston University and Harvard.

Anatolia College has been known as "the pilgrim school of pilgrim people." It was founded in Merifon, Turkey, in 1866, was closed by the Turkish Government in 1921 and in 1925 relocated in Saloniki, Greece, where many of its former graduates and students had gone. The Secretary of the Geneva Disarmament Conference, Hon. A. P. Agnides is an Anatolia College graduate. The college has outlived its pilgrim headquarters. On a new site high above the city of Saloniki, and overlooking the Aegean Sea, splendid new buildings are being erected, to which the activities will be transferred this summer. The snow-capped peak of Mt. Olympus appears across the bay.

Northfield High School Ranks In Class "A"

Occasionally someone asks, "Can graduates of Northfield High School enter college without going to another preparatory school first?" They can enter directly, of course, if they have made good records in high school.

The school has for some time been recognized as a "Class A" high school by the state department of education in Boston. This means that our graduates can enter Mass. Teachers' College on certificate. We also have the privilege of certification granted by the New England College Entrance Certificate Board allowing students who have averages of 85 or over in each subject to enter some colleges without taking examinations. However, none of the larger colleges will accept certificates from any school which requires all candidates to take examinations.

Because some of our students have been satisfied with mediocre ranks rather than work for better ones, they have found it necessary to take a year or two longer to prepare for college. Some of these, who started school too young, have needed this time to grow up between high school and college.

Any high school student who wishes to go to college should try to get at least 85 in every subject.

Nathan Tufts Speaker At Taxpayers Ass'n. Meeting Next Monday

The Northfield Taxpayers Association will gather at Town Hall next Monday evening at 8 o'clock to hear a talk by Mr. Nathan Tufts of Greenfield on "Economy and Taxes." Every voter in Northfield is urged to attend these meetings as they will be educational in character following the theme of "knowing your government." Mr. Ralph Leason will preside at the meeting. The membership roll may be signed at this meeting and there are no dues. This is the peoples opportunity to discuss their town affairs and become fully informed. There is no use now to waste one's breath on the fragrant air around the street corners in aches and groans of criticism nor act grouchy because their intelligence is limited by a knowledge of actual facts. Attend these taxpayers meetings and be wise.

Mrs. Birdsall Re-elected President Of P. T. A.

At the annual meeting of the Parent-Teacher association held in the Town Hall Monday evening, Mrs. M. D. Birdsall was re-elected president, and Miss Braley was chosen to fill the combined offices of secretary and treasurer. Four vice-presidents were chosen, each to serve in succession as president. These were: 1st vice president, Mrs. Donald Williams; 2nd, Mrs. Charles Kehl; 3rd, Mrs. Frank Montague; and 4th Miss Ethelynd Sheldon.

After the business meeting, Mrs. Carroll Miller introduced Professor W. R. Cole Extension Professor of Horticultural Manufactures at M. S. C., who discussed vegetable budgets for fresh consumption, canning and storage. He talked on the seven steps of successful canning, gave the reasons for each step, and demonstrated the proper method of canning string beans. Extension leaflets No. 142, containing many food preservation recipes, were distributed by Miss Gladys Sivert.

The P. T. A. has completed a very successful year under the leadership of Mrs. Birdsall. A talk by Elliott Spear on his year in Scotland, one by Dr. Samuel Hartwell of the Child Guidance Clinic in Worcester, several lectures on child guidance and character training sponsored by the state extension service, a series of lectures and demonstrations on wise planning of the food budget, also offered by the extension service, and the recent talk by Mr. Robbins on school legislation, and the "questionbox" were all part of the year's program. The association has continued its help of the 4-H clubs with encouragement and funds for material used in articles for the playgrounds, and raised money by a food sale for a gift to the 4-H Camp in Colrain. Because of economic conditions, the membership drive planned for the first of the year was postponed, but it is hoped that many who have become interested in this organization will join next fall, to start another year of closer contact with and better information of our schools and teachers, and to take part in the valuable and entertaining meetings.

Clinic Planned

The health authorities of Northfield and Gill announce that there will be three clinics for inoculation against diphtheria to be held during the month of May. The clinics will be held on three successive Saturdays, May 13, May 20 and May 27. They will be held in the town hall in Northfield on those dates at 9 a.m. and in Gill on the same days at 4 p.m. The clinics are free and are for all children between the ages of six months and 15 years who have not already been inoculated.

Dr. Allen H. Wright of Northfield is in charge of both clinics. In Northfield he will be assisted by Mrs. Lilly, district nurse and in Gill by Miss Catherine Herron, district nurse, and other helpers. All children who have toxin-anti-toxin are generally immune for seven years.

Volunteers to transport the children are needed. Offers to assist should be made to either Dr. Wright or Mrs. Lilly.

Post Office Changes

Slate have retired from their positions under a ruling of the Post Office Department upon the employment of married women.

Brush Fire Rages Throughout Woodlands Northfield—Bernardston

Flames swept through two hundred acres of woodlands on Wildcat Mountain on last Sunday morning at North Bernardston and nearly 500 men and fire apparatus from four towns were summoned. Northfield was appealed to for assistance and our local fire members with Chief Galen Stearns responded with many volunteers and four truckloads of students from Mount Hermon School.

The blaze was discovered shortly after 9 a.m., and is believed to have been started by a camper's fire. The fire was burning briskly in the grass not far from the Bernardston Brattleboro highway when first seen and although a number of men tried to stay its progress it spread very rapidly. Chief Harold S. Streeter of the Bernardston fire department was notified and with the aid of volunteers continued to battle the flames. Aid was sent for and apparatus and firemen from the state forestry station, Greenfield, Erving and Shelburne Falls and Northfield at once responded.

West mountain where there is considerable valuable timber, backfired were set and some trees cut down, which proved effective in halting the progress of the fire in that direction.

Dense clouds of smoke arose in the air and attracted spectators from miles around thousands of motorists viewing the spectacle and at times blocking the highways. A detail of state patrolmen arrived and directed traffic as well as aided the firemen in other ways.

The flames were brought under control late in the afternoon, but not before they had done much damage to the property of Fred Plympton, Leon Burrows, Howard Sanderson, Edward McMurdy, Harry Perry and Joseph Buevich.

A large number of men were left on watch during the night to extinguish any blaze which might start from the smoldering embers.

About noon last Sunday another call was received by the fire department for a bad brush fire at Obers place on the mountain where fire was started accidentally from a blast.

Assistant Chief Willis Parker took charge of the work of fighting this fire with a large company of volunteers and about fifty men in all were engaged and kept busy to conquer the flames. About ten acres of woodlands were burnt over but no other property was destroyed. The fire was controlled during the afternoon and burnt itself out.

Hear About Indians Hist. Society Members Enjoy Splendid Lecture

A goodly attendance of members and friends of the Northfield Historical Society gathered in Dickinson Hall at the Library last Saturday evening to hear Mr. A. L. Peale of Norwich, Conn., treasurer of the New London County Mutual Fire Insurance Company give a lecture on "The Discovery of New England and the American Indian."

Gathered largely from his own experience and participation he referred to the successful efforts of Connecticut to mark and enshrine its historical places and illustrated how any community might profit from the fact that so much of a historic character as well as places abound in its midst. The citizens of Northfield might well appreciate and capitalize its valuable assets in the form of historical places. The lecture was illustrated by stereopticon operated by Mr. George Carr. Mr. A. P. Fitt the president presided and introduced the speaker. A number of Indian exhibits were displayed gathered from various locations formerly the camps of Indian warriors. A large delegation of Boy Scouts from the Northfield troops were in attendance.

EDITORIAL

We do not seem to know where we are going; but we are going. Apparently we no longer have a Congress—only a President and a Brain Trust, who are dictators. Never in all history were such powers calmly delivered to any combination of rulers as we see in the United States today.

All that most of us are doing is hanging onto the rigging and praying under our breath that the "Good Lord may deliver us."—*Lewiston Journal*.

Sunday May 14th is Mothers Day and on that day we particularly honor Mother in love and devotion. If she is living we may bestow our gifts and show our appreciation. If she has passed beyond "the gates" we may honor her in precious memory and thought.

Mother is always the one name that brings to us reverential thought and cold and callous is the person who fails to do her honor. In his writing Macaulay pays her this tribute.

"In after-life you may have friends... fond, dear friends; but never will you have again the inexpressible love and gentleness lavished upon you which none but a MOTHER bestows." And Washington Irving bears this testimony: "A father may turn his back on his child, brethren and sisters may become inveterate enemies, husbands may desert their wives, wives their husbands. But a MOTHER'S love endures through all."

To Mrs. Kendrick of Highland Ave. must be given credit for inaugurating a very thoughtful custom of observing the "May Day" in Northfield. On the morning of Monday May 1st she invited the members of the Northfield Book Club to partake of a breakfast at eight o'clock at her home and some fourteen members attended.

Everyone enjoyed themselves and voted this early morning social hour a success. Perhaps we shall hear of others following this innovation another year.

It is proposed to put the Parliamentary Referendum on the ballot for the special election on June 18th and to require a vote on which but few of our citizens know anything about. In brief it is a betting device, in plain English licensed gambling to assist the state through fees and taxes to help pay the old age obligations of the state. Well those persons who have lived an honorable life and reach old age ought to be supported by some better method than from the proceeds of a "gamblers' fund." Our citizens will do well to vote against any such measure.

When the annual visit of Moth inspectors was made this spring about the town, some members of the crew became very ambitious in marking the trees inspected and altogether too extravagant cuts were made on the bark.

The Editor's attention was called to some such cuts recently and protests are to be made against such a practice. It is neither necessary nor wise as trees are injured in so doing.

New Bank Assured For Town Of Athol

The proposed new National Bank for Athol is now assured. The new institution would be named the First National Bank of Athol and while no authoritative information was given it was hinted that it would take about two weeks to complete organization details.

The capital will be \$250,000 of which \$100,000 is common stock \$50,000 surplus and \$100,000 preferred stock subscribed by the Reconstruction Finance Corporation. In due season a board of directors will be chosen which in turn will elect a president and cashier. All these moves have to receive the sanction of the federal government before they become official.

Railroad Ticket Rates Are Reduced

The Boston & Maine railroad has announced a 16 2-3 per cent reduction in all round trip tickets between all ticket selling stations on the B. & M. or associated New England roads.

This reduction is effective until Oct. 31, and is made for vacationists who annually flock to New England resorts.

The New Haven, Boston & Albany, Central Vermont, Rutland & Bennington and Aroostook roads are associated with the B. & M. in this reduction to vacationists. Children under 12 will be carried for half the reduced rate.

Round trip tickets at reduced prices can be bought until Oct. 1 and the return ticket will be good until Oct. 31.

This will be good news to the many folks who attend the Conventions in Northfield and travel home.

Poet's Corner

REQUIEM

I wait for your step in the twilight
And the touch of your hand at the door.
And the soul of me answers your greeting
That comes no more.
I know you are gone beyond calling
And never can answer more.
But oh! how I long for the hilt of your laugh
And the touch of your hand at the door.

William A. Drake.

THE THINKER

Back of the beating hammer
By which the steel is wrought,
Back of the workshop's clamor
The seeker may find the Thought.
The Thought that is ever master
Of iron and steam and steel,
That rises above disaster
And tramples it under heel!

The drudge may fret and tinker
Or labor with lusty blows,
But back of him stands the Thinker,
The clear-eyed man who knows;
For into each plow or saber,
Each piece and part and whole,
Must go the Brains of Labor,
Which gives the work a soul!

Back of the motors humming,
Back of the belts that sing,
Back of the hammers drumming,
Back of the cranes that swing,
There is the eye which scans them,
Watching through stress and strain,
There is the Mind which plans them—
Back of the brawn, the Brain!

Might of the roaring boiler,
Force of the engine's thrust,
Strength of the sweating toiler—
Greatly in these we trust.
But back of them stands the Schemer,
The Thinker who drives things through;
Back of the Job—the Dreamer
Who's making the dream come true!

South Church Notes

Because the Protestant Church no longer shows the cleavage of orthodox and liberal, but is now dividing along the so-called lines of Fundamentalism and Modernism, the liberal elements of all churches are moving slowly together toward the ideal of One Holy Catholic Church. The Unitarians in their national annual assembly in Boston, May 21-27 will vote on what part they will have in this forward church movement. That our Northfield people, regardless of present church connections may be informed on this momentous issue, the subject will be presented next Sunday morning at 10:45 o'clock under the subject of "Faith, Freedom and Fellowship" by Dr. Frank Oliver Hall of New York City.

High School Notes

Friday afternoon at Assembly Mr. William Barr gave a very interesting address on his trip through the western part of the United States. He discussed those details connected with the frontier life of our country which are only mentioned in history books, such as Custer's fall and other Indian raids. The description of Yellowstone Park as portrayed by one who has come in contact with it as intimately as Mr. Barr was received with appreciation by the entire school.

Tuesday afternoon during the music period Miss Webster varied the program by having as special features the rhythm band from the first grade; Joseph Dodds who, dressed in native costume, sang an Indian song; a paper by Rena Tyler on Brahms, a Kreisler record of a Hungarian melody, songs by the Glee Club and solos by Virginia Hoelzer, Elizabeth Auclair and Grace McGowan.

Two Versions of the PROPER CLOTHES

For Playing
in the Sun

SPORTS clothes in order to be smart have to be wearable. The tennis frock and shorts outfit must be designed so that it is the easiest thing in the world to bound from one corner of the tennis court to the other. Beach pajamas, beach dresses and bathing suits also follow this same edict. The shorts costume with its solid colored shorts and its striped blouse makes an ideal tennis or camping outfit. It has com-

fort, style and is at the same time colorful. (McCall 7270).

For those who prefer a dress for their tennis hour, there is the shantung or linen one which uses gay contrast at the neckline and in the short, flaring sleeves. A bit of color is added at the waistline. Just the costume for tennis or other warm weather sports. (McCall 7266). (By courtesy of The McCall Company).
